OZZY OSBOURNE

THE OSBOURNES (MTV)
APRIL 2, 2002

SURE, HE'S A bit doddering now, but as Ozzy Osbourne proved many a time on this show, which launched a thousand pale celeb-family imitations, he knows from evil. Before a Christmas-season concert, Sharon shows her husband machines that will release bubbles into the crowd. Ozzy, failing to see the sinister side of said bubbles, flips out: "Bubbles! Ah, c'mon Sharon! I'm fucking Ozzy Osbourne! I'm the prince of fucking darkness!" A few minutes after bitching out his wife, the prince of fucking darkness sits down next to the backstage deli tray and topples over backwards in his chair.

Ozzy's Christmas luck

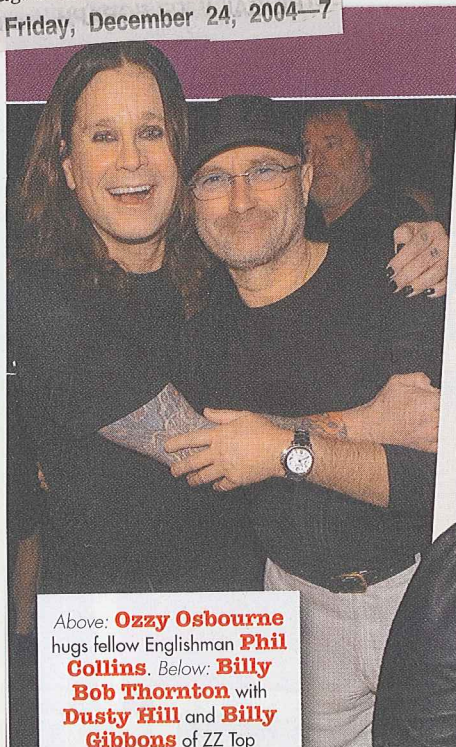

STOLEN gold and silver discs won by Ozzy Osbourne's (pictured) band Black Sabbath have been returned after thieves had an apparent attack of Christmas spirit.

The discs were reported missing last week. Police said today that an anonymous tip-off had led to all eight being found in plastic bags behind recycling bins.

Ozzy Osbourne is putting his foot down over his wife's dogs. Devastated by the loss of beloved pooch Lulu to a coyote recently, **Sharon** was all ready to find not one but a whole litter of new four-legged friends. "Ozzy got wind of what Sharon was up to and told her, 'No f***ing way!' says a friend. "He's fed up with all the doggie dos and yapping around the house as it is. Sharon argues they're good for TV, but Ozzy's not having it. He's told her she can maybe get one small dog, but he wants it properly trained. 'I'm not running a f***ing dogs' home,' he said."
