

before they were stars

These famous faces weren't always so glamorous...

The Osbournes

What TV's First Family was like before MTV

1982

Ozzy wed Sharon (the daughter of his manager) after embarking on a solo career. The two shared a taste for freaking people out.

1986

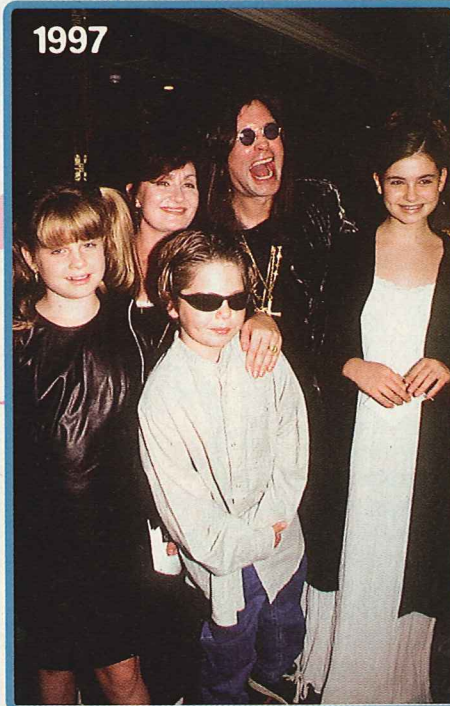

Anyone who watches *The Osbournes* knows Ozzy as a devoted father. "A rock star is supposed to say, 'Run me a bath in Perrier water,'" he says. "I get dog [poop] up to the elbows and an earful of abuse."

1991

Aimee [far left] declined to participate in her family's MTV show. In fact, she doesn't seem to relish the attention Ozzy's rep attracts at all. "I find it so annoying, people asking me if my dad eats bats," Aimee says.

1997

Jack [center] has always followed in the footsteps of his famous dad. He scored a gig as a scout for Epic Records as a teen.
