

SHARON AND OZZY WATER WAY CELEBRATE 28 YEARS

height of his fame the
uil waterways of Venice
e been the last place you'd
ected to find heavy metal
zy Osbourne.

has clearly mellowed the
f Darkness. "I've been
ed by noise all my life," the
d once told HELLO!. "And
like peace and serenity."

might help explain why he
a trip with wife Sharon to
a city as a gift to celebrate
wedding anniversary.

57, the rocker's one-time
who tied the knot with the
ldman on 4 July, 1982, in
vealed her husband's plans
romantic weekend on ITV

show *Loose Women*. "He's more
romantic than I am," she said. "I'm
kind of like straight to it, cut and dry
- and he's not, he's a real softie."

The couple were clearly enjoying
taking in the sights, their smiles and
body language showing their closeness
as they took a gondola ride on the
Grand Canal.

But the *America's Got Talent* judge
admits that their time together has
not been all plain sailing, from
Sharon's treatment for colon cancer
to Ozzy's - and their children Kelly
and Jack's - struggle with addiction,
not to mention a quad bike crash in
2003 that left Ozzy seriously injured.

"It's not been easy," she says. "But it
just works."

Dressed in their trademark black and with his arm around her shoulders
and her hand on his knee (below left), the couple take in the legendary
sights of Venice on an anniversary gondola ride on the Grand Canal.
Their vessel was steered by a gondolier and they were serenaded
not by electric guitars, but by a piano accordion (above left)
