EVERYONE'S TALKING ABOUT...

I'm so sorry, Shazza

Sharon and Ozzy's 'split'

Nooooo - (breathe) - oooooo! Sharon and Ozzy Osbourne splitting up? This cannot be allowed to happen. It's no exaggeration to say that the couple - who've been married for an impressive 31 years - are the cornerstones of our faith in the possibility of celebrity marriage.

They've weathered drink, drugs, Reality TV and even attempted murder (that was the drugs). If Sharon and Ozzy break up, anyone could be next. Elton and David! SJP and Matthew Broderick! Ant & Dec!

Thank goodness, then, that their marriage is *not* over yet, despite reports in some newspapers. Though the couple may not be together at the moment, Ozzy has stated emphatically that they are not divorcing (see page 15 for the full story).

This is good news not just for the couple and their kids Jack, Kelly and Aimee, but for us all. If - as rumoured - Sharon will be returning to *The X Factor's* judging panel, then we all need her to be on top form. That's the important thing here, right?
